### SEMANA 1 (6 hasta 9 julio)

## **ACTIVIDAD INICIAL:**

### **Warming up**

Watch the next video and write your opinión about the question why traveling is important?

[https://www.youtube.com/watch?v=MyqhDKNig88&ab\\_channel=FreedomKingdom](https://www.youtube.com/watch?v=MyqhDKNig88&ab_channel=FreedomKingdom)

## **CONTEXTUALIZACIÓN:**

### **Talking About Money and Cost**

Money is an example of a non-countable noun, so when talking about money and cost, you will need to use the phrase "how much."

- How much does the book cost?
- How much do the toys cost?

How much can also be used with the verb to be to ask about a price:

- How much is it?
- How much are the apples?

However, if the question concerns a specific unit of a currency such as dollars or pesos, both of which are countable, you should use how many:

- How many dollars does the house cost?
- How many euros do you need for lunch?
- How many pesos can you afford?

### **More Practice With Countable and Non-countable Nouns**

Other categories of non-countable nouns include:

- Activities: housework, music, socializing, etc.
- Food types: meat, beef, pork, fish, etc.
- Groups of items: luggage, baggage, furniture, software, etc.
- Liquids: juice, water, alcohol, etc.
- Materials: wood, steel, leather, etc.

When asking for the quantity of any of these items, make sure to use how much:

- How much luggage did you take with you on vacation?
- How much alcohol did you drink?
- How much pork should I buy?
- How much homework do you have?
- How much knowledge do you have about the subject?
- How much help did he give you last week?
- How much advice would you like?

*How Many* is used with countable nouns. These nouns are easy to recognize because they generally end in the plural form with s.

- How many **books** are there on the shelf?
- How many **days** did it take you to finish the project?
- How many **computers** do you have?

### **HOW MUCH ...? - (Price) examples**

**How much** can also be used when we want to know the PRICE of something.

In this case, we can use **How much** with countable nouns (both singular and plural nouns).

- **How much** is that painting?
- **How much** are those shoes?
- **How much** did your jacket cost?
- **How much** is the dress on display in the window?
- **How much** will it cost me?
- **How much** does it cost ?
