Evalúa la competencia para comunicarse efectivamente en inglés. A su vez, en relación con el Marco Común Europeo de Referencia para las lenguas (MCER), se clasifican a los evaluados en 5 niveles de desempeño: A-, A1, A2, B1 y B+. Teniendo en cuenta que, en Colombia, existe población que se encuentra por debajo del primer nivel del MCER (A1), se incluyó en la prueba de inglés un nivel inferior a A1, denominado A-,

que corresponde a aquellos desempeños mínimos que involucran el manejo de vocabulario y estructuras básicas. De igual forma, se incluye un nivel superior al B1 para aquellos estudiantes que superan lo evaluado en este nivel, denominado B+.

La prueba busca que el estudiante demuestre sus habilidades comunicativas a nivel de lectura y uso del lenguaje.

La prueba está conformada por cinco partes. Cada parte evalúa una habilidad específica de la lengua inglesa y se le asocia un porcentaje particular de preguntas, como se describe a continuación en la **tabla 12**.

Tabla 12. Distribución de preguntas por partes de la prueba de inglés

ACTIVIDAD DE AFIANZAMIENTO:

Different Religions

From our earliest days, many people have believed in a power or powers greater than themselves. This belief is known as religion. In ancient times, it was a way to make sense of the mysteries of the natural world; evil spirits were thought to be responsible for bad weather and disease, for instance. Ancient peoples felt that they had a measure of control over their lives when they made offerings and prayed to friendly spirits, whom they believed could help them win battles or grow better crops.

Even today, when people know the scientific explanations for such things as thunder or the eruption of volcanoes, many look to religion to explain some of the other hard-to-understand things which we experience as humans – things like the purpose of life or the reasons for tragedies. Although most religions spring from the same basic human need to believe in a great power or powers, the ideas, practices, and traditions that religions involve can be very different.

What do you think about the religion?

What do you think about God?

What are your beliefs?

2. Choose any religion and prepare an explanation about the most important aspects of them.

SEMANA 2

From September 13 to 17

ACTIVIDAD DE AFIANZAMIENTO:

1. Read the text and answer the questions.

A paranormal experience?

Ghosts, haunted houses, the spirit world or the communication with the dead have fascinated humans since the beginning of their existence. Most people, whether believers or sceptics like myself, find paranormal experiences captivating; you could go on and on listening to these kinds of stories. But the debate lies on whether the allegedly paranormal events that witnesses claim to have experienced are real or not. I personally don't doubt that many of those people really believe that what they have experienced is a paranormal event –real is what you believe to be real after all.

I myself experienced an event that might be considered paranormal by some. A long time ago, my cousin died unexpectedly and her husband, who is a great ghost sceptic, couldn't find my cousin's life insurance policy. One night, my cousin appeared in my dreams. "You smell really bad," I told her. "Of course I smell bad, I'm dead," she said. "Anyway, I'm here to tell you where the document my husband is looking for is." And she told me. The following day, I told my cousin's husband that I might know where the policy was –I didn't tell him how I knew, because that would have prevented him looking for it. The thing is that we went to his home and the document was exactly where my dead cousin had told me it would be. Paranormal?

No doubt, it's very tempting to believe that I actually talked to my dead cousin, and that I have some kind of psychic abilities. That would mean that when we die, we go somewhere in the form of a spirit, which is a nice thing to think, because that means that our soul never dies. But maybe I already knew where that document was, from one of my numerous visits to my cousin's home, and my mind just reminded me where it was through one of my daily dreams. That's more likely, and it's what I am inclined to think happened.

The truth is that there has been so much fraud in the history of the paranormal that it's difficult to give any validity to the high number of paranormal claims that populate the Internet and the different media. Actually, fraud played a key role in the very foundation of spiritualism, a religious movement based on the belief that the spirits of the dead exist and have both the ability and the inclination to communicate with the living.

The first mediums known in recent history, the Fox sisters, convinced a good part of the American and European society of the 19th century that they could talk with the spirits. They made lots of public demonstrations held before paying audiences and that gave birth to spiritualism, and attracted lots of imitators who also claimed to have the ability to communicate with spirits. But surprisingly, in 1888 Margaret Fox confessed that her abilities were just a fabrication, and showed which tricks she had been using to pretend to be talking to the spirits.

Now, can I really talk with the dead? Well, if you put enough money on the table, I might say 'yes', and I might even show you how I do it.
